Infectious Diseases

Nicholas I Paton, Miguel A Gassull, and Eduard Cabré

Essay titles

1. An HIV-infected woman in rural Africa gives birth to an apparently healthy baby. Discuss the options for infant feeding and how you would decide what to recommend. Would your answer differ if the woman lived in the UK, and if so, how?

2. Discuss your approach to an HIV patient who has chronic diarrhoea and severe wasting. How would you restore nutritional status and what would be your aims in doing so?
