Chapter 10: Cutaneous Response to Injury and Wound Healing

Introduction

Re-epithelialization
10.2 Chapter 10: Cutaneous Response to Injury and Wound Healing

**Angiogenesis**

**Fibroblast recruitment, matrix synthesis and scarring**

References

10.4 Chapter 10: Cutaneous Response to Injury and Wound Healing

Growth factors to augment wound healing

Novel therapies for wound healing

Stem cell therapy

Skin grafting and biomaterials
