Chapter 116: Dermatoses of the Neonate

Skin function in the neonate

Barrier function

Eccrine sweating

Sebaceous gland secretion

Chapter 116: Dermatoses of the Neonate

Full-term neonate

Preterm neonate

Small-for-dates and postmature neonates

Miliaria

116.4 Chapter 116: Dermatoses of the Neonate

Phototherapy

1 Giunta E, Bilirubin rash in the newborn. JAMA 1969;208:1703.

Neonatal medical procedures

Atrophic lesions of neonates

Medallion-like dermal dendrocyte hamartoma

Disorders caused by transplacental transfer/maternal milk

Transplacental transfer of maternal autoantibodies

Neonatal pemphigus vulgaris

Transplacental pemphigoid gestationis
Disorders of subcutaneous fat

Cold panniculitis

Subcutaneous fat necrosis of the newborn
Sclerema neonatorum

Collodion baby

Blueberry muffin baby (dermal erythropoiesis)

Neonatal adnexal polyp
