Chapter 24: Principles of Radiotherapy

X-ray photon beams: megavoltage and kilovoltage X-ray therapy

Moulds, applicators and implants

Radiosensitivity

Benign disease

Keloids

Basal cell carcinoma and squamous cell carcinoma of the skin
Radiotherapy for particular skin sites: basal cell carcinoma and squamous cell carcinoma

Radiotherapy for particular skin tumours

References

Mycosis fungoides and other lymphomas

American Society of Clinical Oncology (ASCO), abstract 9001 of a presentation at the 2013 ASCO meeting, 2013; can also be found at J Clin Oncol 2013;31(15) Suppl. May 20:9001.

24.4 Chapter 24: Principles of Radiotherapy

**Acute radiation reaction (acute radiodermatitis)**

**Tumour recurrence after radiotherapy**

**Radiation-induced tumours and rare tumours associated with previous irradiation**
