Chapter 26: Bacterial Infections

Introduction

Staphylococcus aureus

26.2 Chapter 26: Bacterial Infections

Streptococci

5 Mallbris L, Wolk F, Sanchez F. HLA-CW*0602 associates with a twofold higher prevalence of positive streptococcal throat swab at the onset of psoriasis: a case control study. BMC Dermatol 2009;9:5.
**Staphylococcal and streptococcal infections**

**Impetigo**

**Cellulitis and erysipelas**

**References 26.3**

26.4 Chapter 26: Bacterial Infections

Toxic shock syndrome

Staphylococcal scalded skin syndrome

Recurrent toxin-mediated perineal erythema

Streptococcal vulvovaginitis

26.6 Chapter 26: Bacterial Infections

**Streptococcal toxic shock-like syndrome**

**Coryneform bacteria**

**Diphtheria**

**Erythrasma**
